Welcome Message

Dear Team Delegations,

On behalf of the IOC Boxing Task Force, it is my pleasure to share with you the Team Delegations’ Handbook for the Americas Boxing Road to Tokyo – Buenos Aires event.

Since the very beginning of the IOC Boxing Task Force, we have placed the boxers in the very centre of our decisions. This was the case when we created a new Technical Officials selection process and it is certainly the case now when we confirm that the Americas qualifier will finally take place in May 2021.

Argentina has been preparing the right conditions to host athletes from across the American continent during these difficult times of the COVID-19 pandemic. We are very grateful to the city of Buenos Aires, the Argentinian Olympic Committee and the Local Organising Committee for their commitment to provide the participating athletes and teams with a comfortable and secure environment.

The IOC Boxing Task Force is working hard to ensure a fair qualification pathway to the Olympic Games Tokyo 2020, despite the many challenges we are all facing. Forty-nine athletes (33 men and 16 women) will qualify for the Olympic Games Tokyo 2020 directly through this event, and the importance of that cannot be overlooked. In order to help us achieve this, it is important that the information and guidelines included in this handbook be carefully read and distributed to all members of your delegation.

I have learned throughout my time with the BTF that the sport of boxing is made of warriors. Strong people in mind and soul. Together, we can overcome anything! We are here to serve boxing and work together for the future of the sport.

Thank you for your support. I wish you the best of luck with your preparations for Buenos Aires!

See you soon,

Morinari Watanabe
Chair, IOC Boxing Task Force
Welcome Message

Dear friends of the America’s National Olympic Committees,

It is with great pleasure that I send you the handbook of the continental qualification event for Tokyo 2020 Olympic Games.

Having been selected by the International Olympic Committee to organize such a significant tournament is an honor for us. The commitment of our NOC and the local authorities to host this event in a safe and secure environment for all participants is the number one priority in this pandemic context.

For the second time in a short period, Argentina will stage a world class sport competition that will become a source of inspiration for a generation still dazzled by the success of the Youth Olympic Games Buenos Aires 2018.

Our city will receive with open arms the athletes competing in the Boxing Road to Tokyo 2020 and will show again the Argentinian famous passion for sports.

The continental qualification event will be a demonstration of the strong legacy an Olympic competition left in our City forever.

A group of top-notch professionals trained for the Youth Olympic Games in Argentina will guarantee the excellence in the delivery of the competition.

We are thrilled to welcome you, in a few months, in a city enthusiastic for boxing.

Olympic greetings,

Gerardo Werthein

3. **Competition Format**

a. **Event Regulations**

In line with the mandate of delivering the Olympic Boxing Qualifying Events and the boxing tournament at the Olympic Games Tokyo 2020, and considering the proximity to the Olympic Games Tokyo 2020, the IOC Boxing Task Force (BTF) has considered it appropriate to refer to the existing AIBA Technical & Competition Rules (the “AIBA Rules”) and complement them with specific amendments where necessary and/or adequate. In the interest of sporting fairness, the IOC Boxing Task Force has endeavoured to restrict the amendments to those that increase transparency and credibility while limiting their impact on the actual sport practice for the Boxers.

Accordingly, the AIBA Rules, effective as of 9 February 2019 and as amended by the IOC Boxing Task Force, Amendments (together the “BTF Event Regulations”) shall constitute the IOC Boxing Task Force Event Regulations, applicable at the Olympic Boxing Qualifying Events and the boxing tournament at the Olympic Games Tokyo 2020.

- Seedings will be in place for the Official Draw, conducted in accordance with the IOC Boxing Task Force rankings and taking past competition performances into consideration.
- The Official Draw will be conducted by Swiss Timing through an electronic random draw for all non-seeded Boxers.
- Two rings will be used for part of the competition.
- Medals will be distributed to the top four (4) boxers of each weight category (1 gold, 1 silver, 2 bronze).
As part of the COVID-19 countermeasures in place for this event, the following points are to be understood as an addendum to the BTF Event Regulations:

- Each Boxer may be accompanied to the ring by up to two (2) Seconds.
- All boxers must be accompanied by at least one AIBA-certified Coach (1, 2 or 3-Star) at ringside during the bouts.
- One of the two (2) Seconds may be an AIBA-certified Team Cut Technician.

Registered national-level coaches who are not AIBA-certified can be registered as Team Officials and will be allowed to access the warm-up areas. However, they can be on the field of play only when accompanied by an AIBA-certified Coach.

b. Sporting Results

In the case of a boxer who is confirmed COVID-19 positive prior to the individual’s scheduled bout, the bout in question will not take place, with an official result being generated as “Win by Walk-Over” in favour of the individual’s opponent.

Official Bout Results

All results officially generated in the event are final, as per usual BTF Event Regulations. If a boxer is confirmed COVID-19 positive after having boxed in any phase of the competition, the results of the bouts that he/she participated in are unchangeable. This includes any Olympic quotaplace obtained in the event according to the Boxing Qualification System for the Olympic Games Tokyo 2020.

c. Competition Officials

All officials will be reviewed to ensure they meet the selection criteria in areas including but not limited to experience levels, certifications and historical performances. In addition, all Technical Delegates, International Technical Officials and Referees & Judges must be AIBA-certified individuals according to their roles.

The Boxing Task Force, in order to remain compliant to its Boxing Technical Officials Selection Process, has refreshed the list of participating Technical Officials taking part in the Americas Boxing Road to Tokyo event by conducting a new draw of officials.

Additional information can be found in the Boxing Technical Officials Selection Process document.

4. COVID-19 Protection Plan

The Local Organising Committee (LOC), in close cooperation with the local authorities and the BTF, is developing a COVID-19 Protection Plan which establishes the principles, protocols and general guidelines to be followed by **ALL** participants (athletes, team officials, technical officials, service providers, media and staff) before and throughout the event. Please take time to understand the plans, steps you must take and rules you must comply with starting 14 days before you travel and throughout the length of your stay in Argentina. It’s crucial that you take personal responsibility for your part in the plan. Anyone who would not respect the rules put in place in accordance with such COVID-19
Protection Plan may expose the participants to consequences that may have an impact on their participation to the Americas Olympic Boxing Qualifying Event, their access to the venues and on their participation to competitions. Repeated or serious failures to comply with these rules may result in the withdrawal of their accreditation and right to participate in the Americas Olympic Boxing Qualifying Event.

You will find hereunder some key information that we have extracted from the Event Covid-19 Protection Plan which we will share with you in due time. Given the changing nature of the COVID-19 pandemic, the event COVID-19 Protection Plan is a dynamic document that is subject to change in response to any circumstances that may arise prior to or during the event. Updates will be communicated by email and uploaded on Athlete 365.

**IMPORTANT:** All Stakeholders groups will be required to appoint a COVID-19 Liaison Officer (COL) upon registration. This individual will be responsible for COVID-19-related matters within the respective team. This person does not need to have a medical background as the role is more of an administrator. Additional information regarding the role and responsibilities of the COVID-19 Liaison Officer will be included in the Event Protection Plan. The COVID-19 Liaison Officer shall provide a mobile phone number and an e-mail address for which the LOC/BTF will be able to reach him/her, always making himself/herself available for contact.

### a. General Measures

To protect other participants and be protected, the following practices are expected to be followed by each participant taking part in the Boxing Road to Tokyo 2020 qualification events, regardless of function and role:

- Wash/sanitize your hands frequently. Especially if you have had contact with a person or an object of common use
- No handshakes. Use a contactless greeting.
- Always wear a mask when outside of your room, and change the mask if soiled or damp.
- Always cough into your mask, sleeve or tissue
- Maintain social distancing as much as possible (minimum 1.5 meter)
- Practice routine daily hygiene (recommend showering at the start of the day and after physical activity)
- Sanitize/disinfect personal items frequently, including your mobile phone, accreditation, water bottle, pens, etc.
- Avoid sharing your personal items with others (mobile phone, water bottle, pens, etc)

In order to contain the spread of COVID-19, local authorities impose restrictions on the activities and travel outside the “event bubble” created for the Americas Olympic Boxing Qualifying Event. In that context, all participants must restrict their activities and travel to remain within the “event bubble” which includes the official accommodation, transportation and venue (competition and training).
b. Prior to arrival

Before travelling to Argentina, all participants of the Boxing Road to Tokyo Olympic qualification events should monitor their health status continuously, including taking their temperature and monitoring for any symptoms (Argentina Health Minister website) from 14 days before the event. In addition to monitoring their health, individuals are advised to also be extra cautious and limit their social interactions to the fullest in the lead up to the event. A COVID-19 PCR test must be undertaken within 72 hours of departure for Buenos Aires by all participants and, the negative test result certificate must be presented upon arrival in Argentina. The certificate must contain the relevant information in Spanish or English. All pre-arrival tests are of full responsibility of the respective team delegations, including the financial responsibility for the issuing of tests.

In addition, each participant will need to follow the hereunder process (also referenced in section 10):

- 48 hours before arrival to Argentina all participants shall fill the form required by the National Government
- 48 hours before arrival to Argentina all participants shall fill the form required by the Buenos Aires City Government

Do not travel to Argentina if you:

- experience any symptoms of COVID-19 within 14 days prior to departure
- are self-isolating as a result of COVID-19 symptoms or having been in contact with someone who has had symptoms.

It is important you make sure you have access to enough face masks to last throughout your stay in Argentina. Everyone is responsible for their own supply. See WHO guidance on wearing a mask.

If using fabric masks, ensure that they can be washed in high temperatures regularly, with at least two but ideally three layers:

- Inner layer of absorbent material, such as cotton
- Middle layer of non-woven material, such as polypropylene
- Outer layer of non-absorbent material, such as polyester or polyester blend.

c. Upon arrival

For safety measures, the period of arrival will be restricted to four (4) days prior to the first competition day. No departure policy will be enforced however, we strongly encourage athletes and/or teams to leave within 48 hours of an athlete finishing their competition, or an entire delegation being eliminated. No Teams will be allowed to stay longer than officially allowed for this event (latest departure day 17 May 2021)
All participants of the Boxing Road to Tokyo – Americas event will be exempt from upon arrival quarantine, regardless of country of origin and flight itinerary, provided that the following procedures at the Airport in Argentina are fulfilled.

- Complete a health and temperature check (37.5 °C or higher) that are available in order to determine if you have symptoms compatible with COVID-19.
- Submit the negative PCR test result.
- Submit the entry clearances issued by the National Direction of Migration, which exempt the consular visas of each country.
- Submit the documentation to be sent by the LOC detailing the planned place of transfer and care in the case of a suspected positive case.
- To submit the COVID-19 insurance that has coverage throughout the national territory of Argentina including hospitalization and in case of isolation has no exclusions or limitations during the entire stay.
- To undertake the mandatory COVID-19 test requested by the Buenos Aires City Government. As the facilities where these tests are being carried out are outside the arrivals area, the LOC personnel will be in charge of receiving the participants and taking them to this space before being transferred to the hotel. Upon arrival at the hotel, participants will need to isolate in their room until the negative test result is returned (by email or by SMS).

**d. During the Event**

In addition to general measures the following additional measures will be taken:

- Testing will be a crucial part of minimising transmission: used for general screening during the event; as well as used for diagnosis for those experiencing symptoms of COVID-19.
- All participants will be required to complete daily screening consisting of temperature checks (i.e. entering the training / competition venue). Where a temperature is recorded at 37.5 °C or higher, the participant will be directed to the medical station at the venue. The doctor will assess next step to follow after the diagnostic. In case of suspicion of COVID-19, a COVID-19 test will be performed.

For clarity, and as per Argentinian regulations, a participant will be considered as close contact, and therefore, need to isolate, in the following cases:

- Anyone who has provided care to a confirmed case while the case was symptomatic within 48 hours prior to the onset of symptoms and who has not used appropriate personal protection measures.
- Anyone who has not used appropriate personal protection measures and remained within a distance of less than 2 meters with a confirmed case while the case had symptoms, or during the 48 hours prior to the onset of symptoms for at least 15 minutes.
- Anyone who shares a room, bathroom or kitchen with confirmed cases of COVID-19.
- Buses/ Planes: All passengers within a two-seat radius around confirmed cases, who have been symptomatic during the journey.

**Developments of symptoms, positive test or close contact**

Individuals presenting symptoms associated with the COVID-19 virus must:
1. Immediately inform their COVID-19 Liaison Officer, which must, in turn, report it to the LOC COVID-19 Countermeasure Manager.
2. Self-isolate in their room until further information is received.
3. Contact Travel Insurance to activate the COVID-19 protocol. This is required by the City of Buenos Aires and Argentina Ministry of Health.
4. Undertake a PCR test and remain in isolation until the test result is communicated.

If you develop symptoms of COVID-19 at the competition venue or at the training venue outside the hotels you must:

1. Immediately inform your COVID-19 Liaison Officer.
2. You will be taken to the venue medical office for a health check-up.
3. If you are considered likely to be suffering from COVID-19, you will be transported to your Travel Insurance designated facility (or another designated medical facility) to receive a PCR test.

In case of a participant with a confirmed positive test for COVID-19, he/she will:

1. Be immediately placed into isolation according to the regulations of the local health authority either in a designated hotel accommodation (Hotel Impala or Hotel Sheltown) at the expense of the individual or the individual personal travel insurance if applicable, or at the designated hospital.
2. Contact the Travel Insurance to activate the COVID-19 protocol. This is a requirement of the City of Buenos Aires and the Argentinian Ministry of Health.
3. Be asked to submit detailed information relevant to contact tracing.
4. Be prevented from participating to the event during the duration of the quarantine/isolation period. If the participant is an athlete, please refer to section 3 – Event Regulations.
5. Not be allowed to return to their respective countries until the isolation period has been completed.

All individuals directed into isolation should be isolated for 14 days and not have any contact with any other individuals. As per Argentina local regulations, if the participant has not presented symptoms after 10 days of isolation, then the participant can stop his isolation. The purpose of isolation is to monitor the appearance of symptoms, in order to detect new cases early, and to isolate contacts from other people, in order to avoid transmission in the pre-symptomatic/asymptomatic period.

As a result of any isolation periods the LOC will liaise with the hotel and support the National Federation with requirements. Athletes and team officials must ensure they have appropriate medical insurance to cover routine medical healthcare, including COVID-19 care, including hospitalization and in case of isolation has no exclusions or limitations during the entire stay if reciprocal home country arrangement do not apply. Insurance must cover the duration of an athlete's or team officials stay.

e. Leaving the Event

Before leaving Argentina, make sure you are up-to-date on the requirements for entering your destination country, as well as any countries you will pass through in transit.
All pre-departure tests are of responsibility of the respective team delegations, including the financial responsibility for the issuing of tests (approx. 6’000 ARS). If you require a COVID-19 test to enter your country of transit or destination, please make sure to reach-out to the LOC.

48 hours prior to departure, all participants shall fill the form required by the National Government: https://ddji.migraciones.gob.ar/app/home.php. After completing this form, each participant will receive an e-mail with the declaration as well as a PDF file, which they will need to present at the airline check-in.

You should continue to follow the COVID-19 Protection Plan – including hygiene and distancing rules – throughout your departure. Travel to the airport using designated event vehicles and stay vigilant until you reach your destination. When you arrive, follow local COVID-19 regulations.

9. Confirmation of Quota Places for the Olympic Games Tokyo 2020

The IOCBoxing Task Force will inform the respective NOCs of their allocated quota places within three (3) days of the conclusion of the respective qualification event.

The NOCs will then have two (2) weeks to confirm to the IOCBoxing Task Force if they wish to use the quota places.

If an allocated quota place is not confirmed by the NOC by the confirmation of quota place deadline or is declined by the NOC, the quota place will be reallocated to the next highest ranked athlete in accordance with Rule Amendment 16.5, as detailed in the BTF Event Regulations, in the respective
weight category where the quota place was obtained, respecting the criteria outlined in Section C of the Olympic Games Tokyo 2020 Boxing Qualification System.

For the avoidance of doubt, the definition of “next highest ranked athlete” refers to the athlete who has lost to the boxer in question (boxer who did not accept the quota place or had it denied) in the specific bout that determined the qualification.
